

NAPA

24" French door Wine Cooler - DWC047D1BSSPR

PRODUCT FEATURES

French door design

French door design allows for two independently controlled temperature zones and will store up to 42 (750 ml) bottles of wine, 21 bottles in each zone. Precise digital thermostat with LED display can be set and monitored through the door

- Select a temperature between 5C – 18C (41F - 64F) and the frost free fan forced cooling maintains and even internal temperature throughout the zone

Prowave liner

The Prowave liner has re-imagined refrigeration interiors. Designed with extruded rails on which Proglide shelf system is mounted, this liner offers strain-free and frictionless stability for your shelves, further increasing their smooth lifespan. Have larger wine bottles you wish to find a home for? Prowave liner allows the storage of larger diameter bottles of wine at the bottom

Proglide shelving

The Proglide shelving system built in to this unit features 1.5" stainless steel ball bearing glides that allow for full shelf extension and quiet convenience. The extensively-tested tracks are equipped with exclusive anti-vibration technology to safely cradle your finest selection of well-stored wine.

Low E-Glass seals

Low E-Glass seals in the cold in a way that's similar to a thermostat lining. The extremely thin layers of safe and low impassivity materials used in this unit reflect interior temperatures back inside, keeping your drinks properly chilled and protected

zero-clearance hinge

The zero-clearance hinge system on this unit makes for a flush fit integrated built-in that will blend seamlessly with neighbouring cabinets. Surrounding surfaces will also be safe from bumps and nicks due to these ingeniously designed door joints.

*Where some see room for an appliance;
We see room for an experience*
