Stainless Steel

## Baked to Perfection on Every Rack, Every Time

No more getting burned by inconsistent baking. LG ProBake Convection™ delivers even, precise heat on every rack, every time. Inspired by pro ranges, it's the first freestanding range with the heating element moved from the bottom of the oven to the back, so your cookies, cakes, roasts and more are perfectly browned every time.

## A Clean Oven in Just 10 Minutes

LG EasyClean® brings you our fastest oven-cleaning feature yet. In just three steps your oven can sparkle, all without strong chemical fumes or high heat. Simply spray the oven interior with water, press EasyClean and 10 later, wipe away leftover grime. There's even a traditional self-clean cycle for an occasional deep clean.

## Multiple guests? Multiple dishes? No problem.

Simplify dinnertime with LG's 6.9 cu. ft. double oven offering the largest capacity available. Use the quick-heating upper oven for smaller meals on the go. For big events, you'll have the room you need to cook all your favorite dishes, at different temperatures, at the same time. With LG, no meal (or guest list) is too big.

## LG's Fastest Boiling Burner

Busy cooks, rejoice: LG UltraHeat 18,500 BTU burners deliver every bit of the precision you love about gas with even more power. No more waiting around to bring water and other liquids to a boil.

## A Stylish Take on Convenience

Stop reaching over hot pans to adjust your cooktop burners. Sleek, angled controls put power and visibility at your fingertips while bringing an updated, stylish look to your kitchen.
