Black Stainless Str

Stainless Steel

Flawless New Finish Lets Your Style Shine

Deep yet brilliantly appealing, LG Black Stainless Steel Series with black stainless steel brings an undeniable luster to kitchen spaces. It elevates the traditional stainless steel look that has become the standard in today's homes with a satin-smooth, warm and sophisticated finish unlike any other—for a timeless expression that pairs beautifully with any style or colour of surrounding cabinetry.

Baked to Perfection on Every Rack, Every Time

No more getting burned by inconsistent baking. LG ProBake Convection™ delivers even, precise heat on every rack, every time. Inspired by pro ranges, it's the first freestanding range with the heating element moved from the bottom of the oven to the back, so your cookies, cakes, roasts and more are perfectly browned every time.

Cook More

The 6.3 cu.ft. oven capacity gives you more space and gives you the flexibility to cook more dishes and larger platters at the same time.

A Clean Oven in Just 10 Minutes

LG EasyClean® brings you our fastest oven-cleaning feature yet. In just three steps your oven can sparkle, all without strong chemical fumes or high heat. Simply spray the oven interior with water, press EasyClean and 10 later, wipe away leftover grime. There's even a traditional self-clean cycle for an occasional deep clean.

LG's Fastest Boiling Cooktop Elements

Just when you thought it couldn't get any faster, it did. With 3200 watts, these dual cooktop elements are the most powerful available.* Not only do they deliver LG's fastest boil, they let you match the element size to your cookware for the utmost in flexibility.
