TR-30FRZ-R-SS-A — 30" FREEZER COLUMN

COLUMNS

---

True 30" Columns offer homeowners the freedom to design kitchens that look the way they want and, as importantly, reflect the way they live. Paired together, or with one of our side-by-sides, the 30" Columns mean complete control and complete freedom, and for homeowners and designers alike, that means complete luxury.

#### AVAILABLE MODELS

#### 42 INCH STAINLESS DOORS

TR-42SBS-SS-B — 42"  
SIDE BY SIDE REFRIGERATOR/FREEZER

#### 48 INCH STAINLESS DOORS

TR-48SBS-SS-B — 48"  
SIDE BY SIDE REFRIGERATOR/FREEZER

## SIDE-BY-SIDE REFRIGERATORS/FREEZERS

---

The True 42 and 48 are changing the way we think about luxury appliances. Clean, modern, and inspired by the artistry and work ethic of the best professional chefs, these full-sized refrigerators give high-end residential kitchens the look, work space, and performance of the best professional kitchens around the world.

### LOUVERED GRILL

No feature more clearly indicates the origin of the True full-size refrigerator. The stainless grill boasts the precise, clean lines of True refrigerators in luxury restaurants and hotels around the world, and it lifts cleanly for easy top-of-unit access.

### INDUSTRIAL HINGES

Crafted from solid stainless and designed to stay open at 120°, each high-grade hinge passes rigorous testing and boasts a silent, soft close. Others' hinges are solely functional, designed to fade into the background. Not so the True full-size refrigerator—these hinges are proud.

### ROBUST TUBULAR HANDLES

Designed to complement any kitchen interior, the balanced, tubular handles are at the same time robust and ergonomically minded. In other words, you won't ever have to think about opening your True full-size refrigerator—but if you want to, these handles can handle that.

**RAMP-UP LIGHTING\***

We're too proud of our 304 Series stainless steel interior not to shine a light on it. So we developed a dramatic, ramp-up LED lighting system that—more than merely illuminating—showcases the interior and all that it holds.

*\*30 Inch Dual Zone Wine Column has TruLumina® 14 color lighting.*

**SOFT-CLOSE DRAWERS & BASKETS**

Soft-close glides and a Lexan-like front with integrated handle lend dimensional stability and functional clarity to the three stainless steel drawer bins in the True full-size refrigerator. And that's before even mentioning the ample storage space.

**ADJUSTABLE DOOR BINS\***

Three adjustable, removable door bins offer versatile storage and a customizable look, but beyond their adaptability, the 304 Series stainless steel bins are also antibacterial, hygienic, and easy to keep clean.

*\*Available in the True 42, the True 48, and 30 Inch Solid Door Refrigerator.*

TRUE CLEAR ICE MACHINE

BEVERAGE CENTER

---

The exceptional craftsmanship is evident in the precise attention to detail and styling of the True Beverage Center. With True's exclusive balanced refrigeration system, you can set the temperature as low as 33°F, keeping your drinks icy cold. This exclusive technology also enables rapid cooldown of beverages and maintains them at the perfect temperature so they're ready when you are.

### TRUE PRECISION CONTROL

True Precision Control® with steel touch technology and readout provides digital accuracy

### STAINLESS STEEL ENCAPSULATED SHELVES

2 adjustable/removable stainless steel encapsulated glass shelves

### TRUEFLEX SHELVING

TrueFlex® shelving system allows convertibility by adding extra wine or glass shelves.

## OVER 70 YEARS OF TRUE COLD

---

We pioneered commercial refrigeration.  
Now we've refined it for the home.

## HANDCRAFTED IN AMERICA SINCE 1945

---

True Manufacturing is recognized as the leading manufacturer of commercial refrigerators and freezers in the world for the foodservice and soft drink industries. The path to that leadership position began in 1945, when Bob Trulaske and his father, Frank, and later his brother, Art, developed a refrigeration company in their house on Lenox Avenue in St. Louis. From their garage, they built the first 40 cu. ft. upright freezer on the market. Soon after, they began manufacturing Wrapped Rail Roll-Top Bottle Coolers for beer and beverages in a multi-story warehouse on Pine Street in downtown St. Louis, Missouri.

## THIS IS A TRUE STORY

---

One of the Trulaske's very first refrigerators was used to keep beverages cool in a neighborhood bar, where an exhausted traveling 7UP salesman stopped for a drink. He noticed the refrigerator behind the bar and, after finding out that it required no unwieldy, expensive blocks of ice, told the bar owner he had to know who built it for him. In 1948, the 7UP company purchased its first order of True Roll Top Bottle Coolers, and the True legacy was born. That legacy has grown over the course of 70 years and now includes True Residential®, commercial refrigeration refined for the home.

## AN INDUSTRY LEADER

---

For over 70 years, we've been an industry leader in refrigeration. We're respected and sought-after by the culinary community, our refrigerators appearing in some of the most prestigious restaurants and hotels around the world. Now, we've taken our decades of refrigeration leadership and expertise and refined our refrigeration line for the home, bringing the performance and quality of commercial refrigeration to your kitchens and outdoor entertaining spaces. We call it True Residential®, residential refrigeration handcrafted in the USA with the same meticulous attention to quality and detail that industry professionals demand.
