

30 INCH SLIDE-IN GAS RANGE

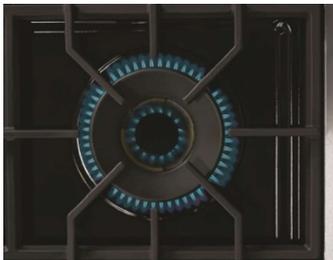

BGR30420SS / BGR30420CSS

Contemporary European Design

Winner of the prestigious iF Design award, Blomberg ranges bring sophistication, thoughtfulness, and cutting-edge technology to the kitchen, harmonizing elegance with chef-worthy functionality with the effortless style your upscale home deserves. This balance is evident in every feature, from the sleek oven handle and sculpted ergonomic knobs to the beautiful LED lights under the bullnose that illuminate the controls and programmable electronic timer.

In Harmony with Your Life

18,000 BTU Burner

Ingenious Blomberg technology can actually help you refine your culinary skills! Flexible-power burners offer pre-set options for more precise cooking at different temperatures. The 18,000 BTU setting delivers high heat to speed up preparation with a fast boil or sizzle. Switching to the 675 BTU setting automatically adjusts to gentler heat, ideal for simmering delicate sauces, melting chocolate, or cooking fluffy rice like an expert.

Industry-leading Oven Capacity

Blomberg knows you can never have too much room in your oven, especially when you're entertaining. That's why we feature the largest oven capacity available in a 30-inch range, with 5.7 cu. ft. of cooking space to accommodate everything from holiday roasts to full-size commercial baking sheets. Dual interior lights and a large viewing window make it easy to monitor what's cooking.

Programmable Self-Clean Oven

Time is the ultimate luxury, and Blomberg ranges protect yours with high-tech programmable self-cleaning oven technology that lets you set exactly the right cycle. Set it for three hours, four hours, or five hours depending on the level of cleaning required. There's no need to scrub hard-to-reach surfaces, scrape up stubborn spills, or use harsh chemicals. At the end of the cycle, simply wipe away ash with a cloth.

Special Programs

Blomberg caters to the executive chef inside every home cook by offering professional-level assistance in the kitchen. Simply select one of the special pre-set options from the display menu for proofing bread, baking amazing pizza, or roasting the perfect turkey and the oven determines the correct cooking mode, temperature, and timing for you.

Auto Re-Ignition

Blomberg ranges are designed to be intelligent as well as stylish and efficient. Safety is built in, with automatic re-ignition should a gust of wind, a spill, or a boil-over extinguish the burner flame at any time during cooking.

30 INCH SLIDE-IN GAS RANGE

BGR30420SS / BGR30420CSS

Cooktop

- 4 gas burners
- 18,000 Btu power burner with simmering
