

GAS COOKTOP

SIGNATURE FEATURES

MIN-2-MAX® GAS BURNER

Designed with a dual-flame sealed burner, this cooktop offers the widest range of BTU performance in the industry for the utmost versatility — from a roaring 20,000-BTU boil to a 1,100-BTU simmer.

PROFESSIONAL-GRADE CONTROL KNOBS

Professional-grade control knobs are designed to provide you with pinpoint precision control.

DEEP-WELL DESIGN

Keeps spills contained for easy cleanup and lowers the cooking surface to countertop-level, which makes moving oversized pots and pans onto and off of the cooking surface much easier.

CONTINUOUS GRATES

Designed for cooking multiple dishes at varying temperatures on a single cooktop. These grates allow easy movement of even the heaviest pots and pans from burner to burner — without lifting.
