Construction

Over 65 years of producing high quality products

Liebherr is a third-generation, family-owned company founded by Dr. Hans Liebherr in 1949 with the creation of the first ever tower crane. With over 65 years of success, Liebherr has become synonymous with the equipment needed to build homes, and the appliances within them.

One of the world's largest manufacturers of construction machinery, Liebherr has expanded to eleven divisions with a wide array of product areas, including: earthmoving, mining, mobile cranes, tower cranes, concrete technology, maritime cranes, aerospace and transportation systems, machine tools and automation systems, components, hotels, and refrigeration products.

Liebherr Group currently employs over 42,000 persons in more than 130 companies in over 50 countries worldwide. Liebherr Appliances is Europe's largest privately owned manufacturer of refrigerators and freezers for residential and commercial use, with an annual production of over 2.1 million units.

Liebherr Appliances in North America

Liebherr in Miami, Florida, USA

Headquartered in Germany, Liebherr Appliances manufactures the widest range of European refrigeration and freezing products throughout the world. Liebherr's first steps into the Americas was in the early 1970's, later expanding Liebherr Appliances into North America in 2004.

Liebherr Appliances in North America is located in Miami, Florida in the United States, and Burlington, Ontario, in Canada.

Liebherr in Burlington, Ontario, Canada

Liebherr Warranty Plan

Full Two-Year Warranty

For two (2) years from the date of original purchase, your Liebherr warranty covers all parts and labor to repair or replace any part of the product which proves to be defective in materials or workmanship.

Full Five-Year Warranty

For five (5) years from the date of original purchase, your Liebherr warranty covers all parts and labor to repair or replace any components that prove to be defective in materials or workmanship in the Sealed System. The "Sealed System" refers to the compressor, condenser, evaporator, drier, and connecting tubing.

Limited 6–12 Year Warranty

From the sixth (6th) through the twelfth (12th) year from the date of original purchase, your Liebherr warranty covers all parts that prove to be defective in materials or workmanship in the Sealed System (parts only).

German Engineering

Craftsmanship

· German and Austrian manufacturing

· Latest production processes

· High-quality materials

· Perfectly detailed finishes

· SuperQuiet operation

BioFresh

· Versatile storage for long lasting freshness

· Retains healthy vitamins, aromas, and appetizing appearance of foods for significantly longer

DuoCooling

· Independent cooling circuits for each compartment

· Superior performance and efficiency

· Better food preservation

ENGINEERING

Performance and Efficiency

ENERGY STAR® and Beyond

Liebherr refrigerators help reduce energy consumption and greenhouse emissions in an effort to reduce damaging effects on the environment, as well as to help consumers conserve energy and reduce energy costs. The entire range of North American appliances meet and exceed ENERGY STAR® ratings.

Fourteen (14) Liebherr models have earned the coveted ENERGY STAR® 'Most Efficient 2017' designation. This is the seventh year in a row that multiple Liebherr models have received this honorable distinction.

ActiveGreen® Initiative

Liebherr is committed to finding greener ways to produce quality, sustainable products. Energy efficiency is at the core of our ActiveGreen® commitment, which is reflected in every aspect of our design and manufacturing process. In 2007, Liebherr became the first refrigeration manufacturer to meet RoHS compliance worldwide, including in North America.

Leader in Green Manufacturing

Liebherr has an established history of responsible production initiatives with the goal of having the least damaging effect on the environment by significantly decreasing the use of chemicals, solvents and energy consumption. An industry trailblazer in green manufacturing, Liebherr Appliances utilizes progressive practices such as recovering and reutilizing energy to heat buildings, using 100% recyclable packaging, and using purified water to ensure that production processes are pollution free.

Quality Standards

Liebherr Appliances are produced under the highest international quality standard, ISO 9001, and are compliant with the international environmental management standard, ISO 14001.

Innovative Ideas

Liebherr integrates style, function and technology to create the best refrigeration products. BioFresh, SuperCool, SuperFrost, and DuoCooling are just a few examples of performance features that contribute to better food preservation.

DuoCooling

DuoCooling provides superior performance and efficiency as well as better food preservation. The dual refrigeration system creates optimal conditions in both the refrigerator and freezer compartments which lengthens the shelf life of food items for a healthier lifestyle. DuoCooling preserves the flavors and textures of foods since there is no transfer of unwanted air, moisture, or smells between the two compartments.

Most Efficient
2017

Experience Superior Food Freshness with BioFresh

Liebherr's BioFresh technology guarantees the perfect climate for superior, long-lasting freshness. BioFresh allows you to store fresh foods in specialized refrigerator compartments that offer optimal and individual environments for fruits and vegetables, fish, meat, and dairy products.

Different types of food require different climate conditions to stay fresh. Liebherr's BioFresh technology provides made-to-measure freshness thanks to a customizable interplay of temperature and humidity controls. The **DrySafe** drawer with low humidity is ideal for storing meat, fish and dairy products, while fruits and vegetables are best kept in the high humidity **HydroSafe**.

Freshness Perfected with BioFresh

The key to achieving a healthy, balanced diet is by eating fresh, high-quality foods full of essential vitamins and minerals. The fresher your food is, the higher its nutritional content will be – boosting your metabolism and strengthening your immune system. Foods preserved in ideal storage temperatures and perfect air humidity will preserve their vitamins, nutrients, flavors, and aromas for far longer.

By customizing the humidity level of the BioFresh drawers, you can enjoy fresher, better tasting and nutrient-rich food significantly longer than in conventional refrigerators *.

Design Options

Freestanding

Stainless steel side wall

Semi Built-in

CS 2062

Key Benefits

Smart Steel

Soft System

Bio Fresh

Super Cool **Super Frost**

SmartSteel: Available on select freestanding/semi built-in models, SmartSteel finish significantly reduces the visibility of fingerprints, is easy to clean, and is scratch resistant. Simply wipe with a dry or damp cloth to maintain this beautiful exterior.

SoftSystem: SoftSystem integrated into the appliance door cushions the door closure, eliminating slamming, even when shelves are with fully loaded. In freestanding appliances, the door will close automatically from an opening angle of approx. 45°.

BioFresh: BioFresh drawers provide a customizable interplay of temperature and humidity controls. The DrySafe drawer with low humidity is ideal for storing meat, fish, and dairy products, while fruits and vegetables are best kept in the high humidity HydroSafe.

SuperCool/SuperFrost: Simply quick chill and/or freeze just-bought groceries to preserve optimal freshness and seal in flavors, textures, and essential vitamins and minerals.

Vario Space

Swing Line

VarioSpace: VarioSpace is Liebherr's practical solution to accommodating bulky items. All freezers include drawers and glass shelves that can be conveniently removed to create extra storage space when needed.

SwingLine: Liebherr freestanding appliances include a sleek, stainless steel SwingLine design with elegantly contoured edges, perfect for semi built-in installations.

Stainless steel back wall: The high-quality, stainless steel back wall is both eye-catching and highly functional. The stainless wall prevents foods from freezing up against the evaporator, ensuring that the back of the refrigerator is always drip and ice-free. Ventilation slits also help guarantee optimum temperature distribution.

Bottle shelf: The versatile glass/bottle shelf can be interchanged depending on your personal preference. Use the glass layer for additional shelf storage, or simply remove the glass plate to access the bottle rack where you can chill and store beverages.

Features shown are model dependent. Product features may vary.

The slim styling and urban design of the **CBS 1360** is the perfect appliance for small spaces, galley kitchens, or apartment living. This sleek 24" refrigerator-freezer includes unique features such as BioFresh technology, which helps foods retain their healthy vitamins, aromas, and appetizing appearance for significantly longer than in conventional refrigerators. The CBS 1360 also includes LED light columns inside the refrigerator which function as shelf support for the scratch resistant and easy-to-clean GlassLine shelves. Smart interior design features include a glass/bottle shelf, foldable glass shelf, gallon holders to maximize space, and a stainless steel back wall which prevents dripping and the build-up of ice. Liebherr's SmartSteel material on the door is scratch resistant and makes fingerprints virtually disappear.

Alternatively, the **CBS 1360** can be flawlessly built into kitchen cabinetry to fit personalized designs that reflect your lifestyle. Liebherr offers an exterior water filter accessory for the CBS 1360 which can be placed into the cabinetry above or beside the appliance.

The 30" **CS 1400R** refrigerator-freezer is the perfect appliance for installations of a smaller footprint with upper cabinets, while encompassing all of the great features and benefits of a Liebherr appliance. While being one of the most energy efficient appliances in its class, the CS 1400R includes smart interior design features like a foldable glass shelf, and a stainless steel back wall which prevents dripping and the build-up of ice. Liebherr's SmartSteel material on the door is scratch resistant and makes fingerprints virtually disappear, while doors close automatically and gently thanks to our SoftSystem technology, which eliminates slamming even when shelves are fully loaded.

Liebherr's DuoCooling system, with individual variable speed compressors, provides superior performance and efficiency, as well as advanced food preservation. The dual refrigeration system creates optimal conditions in both the refrigerator and freezer compartments, which lengthens the shelf life of foods for a healthier lifestyle. Individual silent cooling systems ensure accurate temperature and humidity controls so that your fresh foods never dry out.

Key Benefits

The stylish answer to freshness. In custom kitchens, integrated appliances are the most stylish option available – they're totally out of sight. Built-in appliances fit harmoniously into a kitchen's design; yet there is no secret of what lies within. Liebherr's integrated appliance are concealed behind cabinet doors allowing you to show off the materials, colors and design of your custom kitchen to full advantage.

Door-on-door technology: Allows custom panels to be affixed directly onto the appliance, concealing the appliance within custom kitchen cabinetry. The cabinet and the refrigerator door open as one, ensuring a wide range of design options and easy installation.

Glass Line

GlassLine: The elegant, yet tough, GlassLine shelves are scratch resistant and easy to clean, as well as dishwasher safe. These space saving shelves are designed for better organization of the contents of your refrigerator, and are completely adjustable to suit your needs.

Soft System

LED

SoftSystem: SoftSystem eliminates slamming of the appliance door even when shelves are fully loaded, and close automatically from an opening angle of approx. 35°.

Light columns: Premium appliances come with LED light columns, which incorporate multiple LED bulbs, evenly illumining the interior of the refrigerator. The special satin-finish on the lighting cover, and soft brightening of the lights upon opening, give an elegant and high-class ambiance.

Features shown are model dependent. Product features may vary.

HCB 2062

Key Benefits

Bio Fresh

Bio Cool

Telescopic Rails

Ice Maker

Super Cool **Super Frost**

Super Quiet

BioFresh: Foods stored at just over 32°F, and at the right humidity level, retain their nutrients, flavors, and color for far longer than if stored in conventional refrigerator compartments.

SuperCool/SuperFrost: Simply quick chill and/or freeze just-bought groceries to preserve optimum freshness and seal in flavors, textures, and maintain essential vitamins and minerals.

BioCool: BioCool regulates humidity to keep fruits and vegetables fresher for longer. The drawer extends smoothly on either a roller system or on premium-quality telescopic rails, both of which guarantee ease-of-use, convenient access, and a perfect view of stored products. Humidity is regulated via a slider control.

Freezer drawers: Double freezer drawers mounted on telescopic rails offer plenty of storage space. A self-closing system for both drawers ensures an easy and convenient handling. The freezer drawers are perfectly illuminated by LED lights.

IceMaker: Liebherr's automatic IceMaker produces perfect half-moon crescent ice cubes and keeps a constant supply on hand for every occasion.

Gallon storage on door: Liebherr refrigerators are designed to fit more cubic feet of your everyday life. The durable, yet elegant, GlassLine door racks easily hold gallon milk or juice on hand.

SuperQuiet: Noise is kept to a minimum thanks to virtually silent, speed-controlled, and specially-absorbed compressors. Alongside a low noise cooling circuit, these features ensure exact performance, energy efficiency, and SuperQuiet operation.

Features shown are model dependent. Product features may vary.

The sophisticated, elegant European design of the 24" **HCB 1060** refrigerator-freezer is the perfect appliance for small spaces, galley kitchens, or apartment living. The HCB 1060 blends in beautifully with any kitchen cabinetry, providing diverse design options to fit your dream kitchen. Liebherr's door-on-door technology allows for custom paneling to be affixed directly onto the appliance door, ensuring that the cabinet and refrigerator door open as one, allowing for additional design options and easy installation. Liebherr's automatic IceMaker with fixed water connection produces crystal clear ice cubes, keeping a constant supply on hand for every occasion.

This seamless, cabinet-deep **HCB 1060** is slim in stature, yet full of innovative features such as BioFresh technology, which helps foods retain their healthy vitamins, aromas, and appetizing appearance for significantly longer than in conventional refrigerators. One of the BioFresh drawers includes Liebherr's FlexSystem storage solution, where fruits and vegetables can be clearly organized and separated, or stored according use-by date.

Hidden away behind custom cabinetry or shown off with optional Liebherr designed stainless steel panels, the stylish and sleek 30" fully integrated **HCB 1560** refrigerator-freezer offers impressive performance features and design flexibility. The smart DuoCooling system, with individual variable speed compressors, ensures that there is no air exchange between the refrigerator and freezer compartments, guaranteeing that food won't dry out, and that the freezer is always ice-free.

Liebherr's BioFresh technology helps foods retain their healthy vitamins, aromas, and appetizing appearance for significantly longer than in conventional refrigerators. Each BioFresh drawer can be adjusted individually, and provides ideal humidity for versatile storage solutions. The automatic IceMaker with fixed water connection produces perfect half-moon crescent ice cubes, keeping constant supply on hand for every occasion.

GOOD DESIGN

+X PLUS X AWARD
LIEBHERR
High Quality
Design
Ease of Use
Ecology

The 30" **HC 1550** refrigerator-freezer blends in beautifully with any kitchen cabinetry, providing diverse design options to fit your dream kitchen. Liebherr's door-on-door technology allows for custom paneling to be affixed directly onto the appliance door, ensuring that the cabinet and refrigerator door open as one, allowing for additional design options and easy installation.

Double freezer drawers mounted on smooth telescopic rails offer more than 4 cubic feet of storage space, along with convenient handling and viewing of food stored. The automatic IceMaker with fixed water connection produces perfect half-moon crescent ice cubes, keeping a constant supply on hand for every occasion.

* Estimated energy cost will depend on utility rates and use. Estimated energy cost based on a national average electricity cost of 12 cents per KWh.

** Noise level – sound power re 1pW – according to EN 60704-3.

Unit Dimensions

Cabinetry panels attach directly onto the appliance door(s) (Door-on-Door technology). No cabinet hinges are required.
*Recommended: 22" (560 mm)
Maximum weight of door panel(s): 114 lb (52 kg)

Refrigerator door panel: 57 lb (26 kg)

Freezer door panel: 57 lb (26 kg)

Key Benefits

Ice Maker

IceMaker: Liebherr's automatic IceMaker with fixed water connection produces perfect half-moon crescent ice cubes and keeps a constant supply on hand for every occasion. An activated charcoal filter ensures that pure water is used for the production of clear ice.

Glass Line

GlassLine: The elegant, yet tough, GlassLine shelves are scratch resistant and easy to clean, as well as dishwasher safe. These space saving shelves are designed for better organization of the contents of your refrigerator, and are completely adjustable to suit your needs.

Touch control system: Our intuitive touch electronic control panel (found on most models) ensures that all functions are easy and convenient to use.

Soft Telescopic

SoftTelescopic: BioFresh and pull-out drawers with SoftTelescopic – a highly practical self-retracting, self-closing feature – makes daily use convenient and secure. The drawers are fully extendible and removable from a door opening angle of 90°.

Soft System

SoftSystem: SoftSystem integrated into the appliance door cushions the door closure, eliminating slamming, even when shelves are with fully loaded. In built-in appliances, the door will close automatically from an opening angle of approx. 30°.

Water-Filtration

Water filtration: The integrated water filter for the IceMaker is conveniently located behind the magnetic toe kick, allowing for quick filter changes when indicated by the electronic control panel.

Features shown are model dependent. Product features may vary.

Key Benefits

Offering amazing capacity as well as superior storage, the sophisticated design of these units blends beautifully with any décor. Whether you are entertaining a large group or having a quiet family night at home, these units offer storage flexibility without compromises on elegance and design.
ADA compliant: Liebherr's undercounter appliances are ADA compliant, designed to fit under counter heights between 32" and 34".

Beverage center: Liebherr offers undercounter beverage centers to fit your needs, either with a glass door with an elegant stainless steel frame for indoor use, or with a solid door for outdoor installation.*

SoftTelescopic: Food can be stored securely within reach thanks to fully-extendible pull-out drawers. The SoftTelescopic system provides convenient and reliable self-retraction with soft closing.

Ventilation: Liebherr's undercounter appliances are available for integrated use or for fitting with décor panels. Ventilation occurs through the base plinth, so a ventilation grill is not required on top of the appliance.

Features shown are model dependent. Product features may vary.
* Side-by-Side Kit available

UPR 503

The **UPR 503** takes both the designer and the user in mind, offering convenient features and design flexibility to fit any home. The universally designed, pull-out undercounter refrigerator can be adjusted in height to match that of the counter space, providing an optimal fit for countertops up to 34" high. Like all Liebherr integrated appliances, the UPR 503 uses door-on-door technology, allowing custom panels to be affixed directly onto the appliance door, ensuring seamless integration within your custom design, as well as easy installation.

The **UPR 503**'s fully extendable drawers are designed with SoftTelescopic, which provides reliable self-retraction and soft closing. The elegant, yet tough, space-saving GlassLine shelves are both scratch resistant and easy-to-clean.

Noise is kept to a minimum thanks to virtually silent, speed controlled, and specially-absorbed compressors along with a low noise cooling circuit, ensuring exact performance, energy efficiency and SuperQuiet operation.

GOOD DESIGN

PLUS X AWARD · LIEBHERR · Ease of Use

Liebherr's sleek **RU 510** 24" beverage/wine center stores a variety of drinks to perfection, while keeping them close at hand in any kitchen, bar, or entertainment area. Whether you're entertaining a large group, or having a quiet family night at home, the RU 510 offers amazing capacity and superior storage, with sophisticated design that blends beautifully with any decor.

The **RU 510** features a glass door for a clear view of stored beverages, and an elegant stainless steel frame that can also accommodate a custom panel if desired. The appliance offers a variety of storage flexibility options thanks to the glass shelves with stainless steel trim, a convenient split shelf for storing taller items, and a pull out metal rack. The electronic control system is situated at the top of the interior and is visible through the glass door, allowing for temperature settings between 37°F to 68°F.

Outdoor Beverage/Wine Cooler

The 24" **RO 510** outdoor undercounter beverage/wine cooler is the ultimate barbecue and entertainment accessory, turning your outdoor kitchen into the ultimate place for entertaining. This model offers the best solution to store beverages such as wine, beer and soft drinks, as well as barbecue supplies and condiments, close at hand without compromising on elegance and design.

The temperature of the **RO 510** can be set between 36°F and 68°F for a variety of uses. This outdoor appliance includes three glass shelves with stainless steel trim for flexible storage, including a versatile split shelf for storing taller items, and two door racks (one adjustable). This model is perfect for outdoor entertaining, operating perfectly in ambient temperatures from 50°F to 109°F. Because of its sophisticated stainless steel look, the RO 510 can also be used indoors within a kitchen or bar for added convenience.

Key Benefits

LED

LED lighting: All Liebherr wine cabinets are equipped with innovative LED lighting, which can be dimmed for a pleasing ambient light inside the wine cabinet, while emitting less heat, optimal for long-term illumination.

Presentation shelf: The practical shelf of the Vinidor models fulfills both bottle storage and presentation functions. The bottles can be stored horizontally at the rear.

Activated charcoal filter: During prolonged storage, wines can be adversely affected by environmental odors. Optimum air quality is guaranteed in Liebherr wine cabinets thanks to the easy-to-replace activated charcoal filter, which purifies incoming air.

Integrated lock: Nicely concealed into the side of the door, this sturdy lock protects your fine wine collection.

Electronic LCD display: Touch electronic control systems allow the temperature to be set to the exact desired degree, easily and accurately thanks to the electronic LCD display.

Compressors: Even slight vibrations can disturb the wine maturing process and prevent the tannins from settling. Specially developed, exceptionally low-vibration compressors are included in all Liebherr wine cabinets, ensuring that wine is optimally stored.

Wine models are intended for storing wine exclusively. Maximum indicated bottle capacity is based on Bordeaux bottles (0.75 l).
Features shown are model dependent. Product features may vary.

HW 8000

The fully integrated **HW 8000** multi-temperature wine cabinet is sure to compliment any kitchen, bar, or living room design. The temperature in each of the two sophisticated temperature zones can be set between 41°F and 68°F, ensuring optimal storage conditions for suitable for storing reds, whites, and champagnes. The HW 8000 provides storage flexibility for up to 80 Bordeaux bottles thanks to its beech wood shelving and ten storage areas at varying heights, ideal for grouping different bottles types and sizes. A flexible clip-on labelling system ensures a clear overview of your wine collection. Alternatively, you can display your wines on the high-quality presentation shelf.

The **HW 8000** can be fully integrated to match your unique design, matching cabinetry heights of up to 80" or 84", including Side-by-Side combinations for maximum wine storage. A stainless steel panel accessory kit is available for when your design calls for a stainless steel look.

The **HW 8000**'s activated charcoal filter provides superb air quality by removing contaminating substances from the cabinet air. The insulated glass door with UV protection and LED lighting, alongside the activated charcoal filter, protect your finest wines from busy kitchen influences such as light and damaging odors.

The innovative and superbly designed **HWgw 1803** wine cabinet is designed for today's modern kitchen. Featuring high performance technology alongside easy-to-use features, the HWgw 1803 proves that it's possible to save energy without compromising convenience and design. Employing state-of-the-art climate technology with heating and cooling circuits, alongside FreshAir activated filtration, the HWgw 1803 ensures the very best conditions for wines to quietly mature and develop their full flavor. Precision electronics, specialized compressors, and a variety of additional innovative features, make the HWgw 1803 the ideal model for optimally storing wine.

The **HWgw 1803** includes TipOpen technology – the perfect solution for hands-free kitchen designs. When the glass door is gently tapped, TipOpen technology partially opens the cabinet, facilitating further opening. If the door is not fully opened within three seconds, the door will self-close, ensuring that ideal air humidity is maintained within cabinet. When fully opened, the door opens downward like an oven.

The easy-glide accessory drawer can be used to store wine accessories directly below the **HWgw 1803**. The accessory drawer is available in black glass, or stainless steel, to match the HWgw 1803 and your custom cabinetry.

PLUS X AWARD
LIEBHERR
High Quality
Ease of Use
The **WUgb 3400** offers a number of innovative solutions for wine storage. The temperature in each of the two sophisticated temperature zones can be set between 41°F and 68°F, ensuring optimal storage conditions for reds, whites, and champagnes.

The elegant black glass door, featuring TipOpen technology, offers seamless integration into handle-free kitchen cabinetry. This smart wine cabinet can hold up to 34 Bordeaux bottles and when lightly tapped, the glass door partially opens, facilitating further opening. If the door is not fully opened further within three seconds, the door will self-close, safeguarding your precious wines.

Liebherr's design uses recirculated forced air cooling and a permanent fresh air supply via an easily exchangeable activated charcoal filter. Humidity ranges between 50 and 80 percent, permitting wine to breathe as it matures and to keep corks supple. Specially developed, quiet compressors ensure that the **WUgb 3400** produces the lowest vibration possible as fine wines love peace and quiet as much as anyone.

Temperature, humidity, vibration, and light are the most important elements of wine storage. Liebherr's **WU 3400**, with dual temperature zones, addresses all four of these areas with the best storage and preservation needs in mind. The temperature in each of the two sophisticated temperature zones can be set between 41°F and 68°F, making the cabinet suitable for storing reds, whites, and champagnes.

As a true wine storage unit, the **WU 3400** includes heating capabilities to maintain accurate temperatures when the location of the appliance is colder than the desired set temperature. Temperatures will not drop below 32°F thanks to the safety thermostat, ensuring the best quality of your wines. In addition to the constant temperature feature, ideal climates are created with alongside exceptional air quality. Liebherr's design uses recirculated forced air cooling and a permanent fresh air supply via an easily exchangeable activated charcoal filter.

Humidity ranges between 50 and 80 percent, permitting wine to breathe as it matures and to keep corks supple. Specially developed, quiet compressors ensure that the cabinet produces the lowest vibration possible as fine wines love peace and quiet as much as anyone. The **WU 3400** is available in stainless steel or can be designed with a custom panel using the overlay accessory kit.

The **WU 4500** wine storage cabinet is ideal for storing wines for long periods of time, allowing them to mature to perfection. The temperature of the cabinet can be set between 41°F and 68°F, making the cabinet suitable for storing reds, whites, and champagnes.

The **WU 4500** can hold up to 46 Bordeaux bottles, stored on beech wood shelves with smooth telescopic rails. With a constant supply of fresh air via an activated charcoal filter and continuously circulating air cooling, this appliance guarantees consistent high air quality during the maturing process. A specially developed compressor ensures that wines are stored in a vibration-free environment so as to not disturb the wines' sediment.

The **WU 4500** can be integrated easily and elegantly into any custom kitchen design as it ventilates through the toe kick, eliminating the need for counter slots. This sophisticated appliance also boasts a digital temperature display conveniently located at the top of the cabinet with visibility through the elegant glass door.

The **WS 17800** satisfies your need for the smartest, most elegant way to store wine, in addition to adding a sophisticated flair when entertaining your guests. While stylish enough to fit any decor, the WS 17800 also creates the ideal conditions for wines to mature successfully – constant air quality, temperature, and humidity controls, alongside quiet, vibration-free storage. Specially developed, quiet compressors ensure that the cabinet produces the lowest vibration possible, allowing wines to fully mature. The insulated glass door with UV protection, alongside the activated charcoal filter, protect the wines from busy kitchen influences such as light and odor.

The three temperature zones within the **WS 17800** can be set between 41°F to 68°F, making the cabinet suitable for the storage of reds, whites, and champagnes. This model is equipped with an alarm system to alert the user if the door has been left open, or if the selected temperatures have been compromised. The energy efficient LED ceiling light not only emits virtually no heat, but it is dimmable to cast a cool glow across the room.

As a true wine storage unit, the **WS 17800** includes heating capabilities to maintain accurate temperatures when the location of the cabinet is colder than the desired set temperature. Liebherr's design uses recirculated forced air cooling and a permanent fresh air supply via an easily exchangeable activated charcoal filter. Humidity ranges between 50 and 80 percent, permitting wine to breathe as it matures and to keep corks supple. Attractive beech wood shelving with smooth telescopic rails, and a unique drop-down presentation shelf, makes displaying your finest wines elegant and easy.

Key Benefits

LED

LED lighting: For ideal presentation, the WS 1200 features LED lighting with dimmer function. As the LEDs emit minimal heat and no UV radiation, bottles can be lit without compromising the quality of the wine.

Accessory drawer: This practical accessory drawer is used for storing additional wine items, or to provide the right temperature for chocolate or candy to be enjoyed alongside the wine.

Ideal humidity: The integrated water tray can accommodate 34oz of distilled water for ideal humidity. Sensors regulate the precise humidity level selected, while the electronic display informs when water needs to be replenished into the tray.

LED

LED lighting: Liebherr's XS 200 humidor has LED lighting, with dimmer function, incorporated into the glass door. As LED lights emit virtually no heat, cigars can be exposed to eliminate light for long periods of time without damage.

Precision electronics: The touch electronic control system allows the temperature to be set to the exact desired degree, from anywhere in between 41°F and 68°F.

Wall mounting: The WS 1200 and XS 200 can be wall mounted, providing an attractive focal point in the room, while saving space and adding convenient access for serving.

Fine cedar wood: The XS 200 humidor's two presentation boxes and shelves are crafted from Spanish cedar wood. The presentation boxes vary in height for additional storage options.

Presentation boxes: The wooden presentation boxes are perfect for storing loose cigars, and can be easily removed for presentation to your guests.

Features shown are model dependent. Product features may vary.

Liebherr's **WS 1200** offers premium wine storage in an attractive package to fit within any setting. This tabletop wine cabinet holds up to 12 Bordeaux bottles on solid beech wood shelving, and includes a drawer to store wine accessories, chocolates, or candies. The temperature of the cabinet can be set between 41ºF and 68ºF, making the WS 1200 suitable for storing reds, whites, and champagnes. Energy efficient LED lighting can be controlled with a dimming function creating the perfect atmosphere without affecting the temperature of the wines.

The **XS 200** humidor creates the perfect environment for your finest cigars with the proper balance of humidity and temperature. Humidity can be set from 68 to 75 percent, where moisture is supplied from a removable distilled water container. The storage cabinet can be set from 61ºF to 68ºF, depending on the owner's preference. This humidor includes LED lighting with dimmer function, emitting virtually no heat, meaning cigars can be exposed to light for long periods of time without damage. The XS 200's two presentation boxes and shelves are crafted from Spanish cedar wood, and vary in height for additional storage options. The wooden presentation boxes are perfect for storing loose cigars, and can be easily removed for presentation to your guests.
