*Laundry Centers*

A washer and  
dryer in one  
24" space

**Home**  
*Series*

## Maximum Performance. Minimum Consumption.

The Splendide washer-dryer is among the most energy and water efficient washing machines available. So you'll not only be getting outstanding wash and dry results, but you will also be conserving precious energy and water.

## Easy to use.

Load it up and set the controls with ease - the Splendide features controls that are easy to use and a wider, 11.8" door for easy loading and unloading. Indicator LED's and Time Remaining displays show the cycle progress as the Splendide goes from wash to dry.

## As soothing as a lullaby.

'Super Silent' means Splendide can do laundry without disturbing those nearby. A Splendide washer-dryer is so quiet that many owners choose to use them even while they sleep. Special sound-absorbing materials, and a tri-phase motor work together to help Splendide deliver outstanding performance with less noisy interference.

## Built tough.

The Splendide not only offers the space and energy savings that has become so important in today's world, but it is built tough and designed for a long lasting life. Built to last, a Splendide washer-dryer comes equipped with a stainless steel drum and a reinforced case for many years of reliable use.

## Extra Capacity.

At just 24" it may look small, but the Splendide washer-dryer offers class-leading load size capabilities. Able to wash 15 lb. loads, the Splendide offers plenty of laundry capacity for two people.

## As caring as you are.

A Splendide washer-dryer features the latest electronic controls that intuitively measure load size to deliver the perfect combination of water, temperature and spin speeds for the best results. Clothes come out clean and dry without damage to even the most delicate of fabrics.

# Splendide *Home* Series Washer-Dryer Combo

Your laundry, washed and dried. The best washing and drying performances all in one.

## ARWDF129NA

**Dimensions:** 33 1/8" H x 23 1/2" W x 22 1/4" D

Performance

Washing performance class: A  
 Energy efficiency class: A  
 Wash water use: 7.5 to 16 gal/cycle  
 Drying water use: 2.5 gal/hr.

## Venting issues? No problem.

Splendide's combination washer-dryer definitely enhances lifestyle by offering in-unit laundry even when space and venting seems impossible. By using condensation technology to dry your clothes, our machine heats the load to create steam, then uses cold water to cool the outer drum. When the steam hits the cooled surface, it's condensed back into water and is pumped out through the drain. No venting required!

### Sample Wash-Dry Load

- 2-3 bath towels
- 1 hand towel,
- 1-2 wash cloth(s).

Dry Time\*:  
75-120 minutes

\*Sample Load dry times based on Cotton Heavy Duty wash/dry and vary according to fabric type and size.

Splendide leads the industry in capacity, efficiency and performance.
