

XS 200

Design & Lifestyle

LIEBHERR

Quality, Design and Innovation

The **XS 200** humidor creates the perfect environment for your finest cigars with the proper balance of humidity and temperature. Humidity can be set from 68 to 75 percent, where moisture is supplied from a removable distilled water container. The storage cabinet can be set from 60°F to 68°F, depending on the owner's preference. This humidor includes LED lighting with dimmer function, emitting virtually no heat, meaning cigars can be exposed to light for long periods of time without damage.

The **XS 200's** two presentation boxes and shelves are crafted from Spanish cedar wood, and vary in height for additional storage options. The wooden presentation boxes are perfect for storing loose cigars, and can be easily removed for presentation to your guests.

* Estimated energy cost will depend on utility rates and use. Estimated energy cost based on a national average electricity cost of 12 cents per kWh.

** Noise output – according to EN 60704-3.

German Engineering: Our superior products offer premium quality, cutting edge design, and innovative features that best fit your lifestyle. The use of high quality materials, perfectly detailed finishes, and elite cooling components are combined with the latest production processes, resulting in an outstanding cooling product.

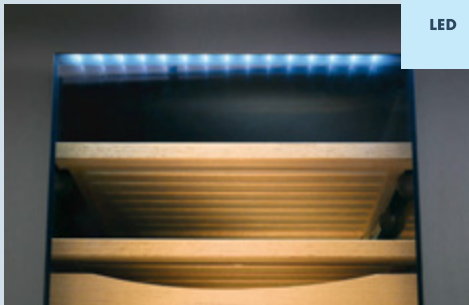

Smart Steel

SmartSteel: Available on select freestanding/semi built-in models, SmartSteel significantly reduces the visibility of fingerprints and is very easy to clean and scratch resistant. All that is required to maintain this beautiful exterior is the wipe of a clean dry or damp cloth.

Electronic Control

Precision Electronics: The accurate touch electronic control system allows the temperature to be set and maintained to the exact degree selected.

LED

LED Lighting: LED lighting with dimmer function is incorporated into the glass door. As the LEDs emit virtually no heat, the cigars can be exposed to the light for long periods of time without damage.

Alarm: The temperature alarm alerts the user of any temperature changes or irregularities.

Ideal Humidity: The integrated water tray can accommodate 34oz of distilled water for ideal humidity. Sensors regulate the precise humidity level selected. The visual display informs when water needs to be replenished.

Fine cedar wood : The two presentation boxes varying in height and the two wooden shelves are crafted from Spanish cedar wood.

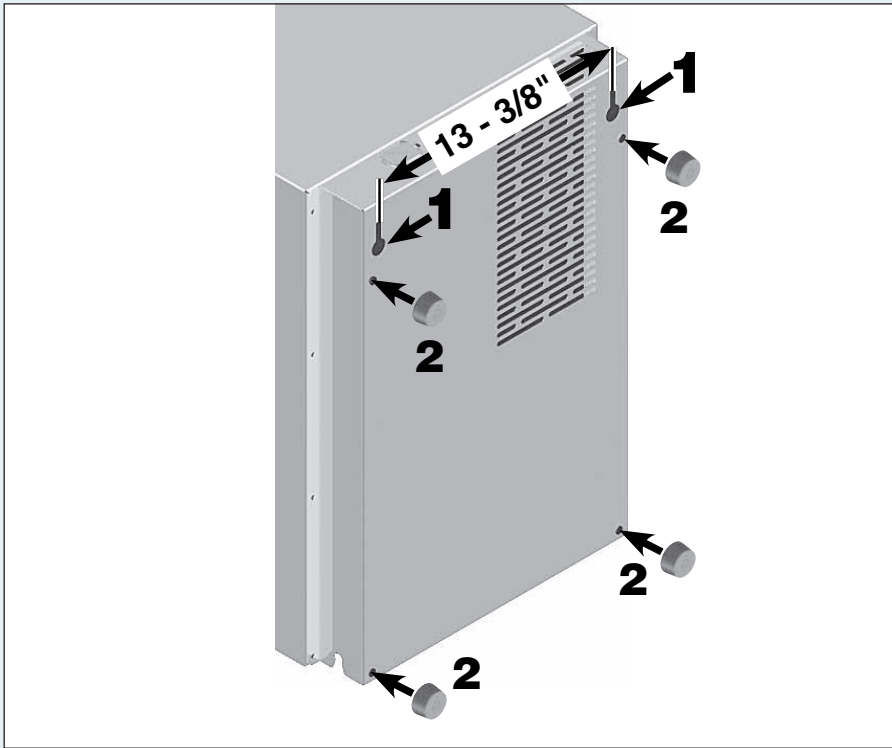

Presentation boxes: Perfect for storing loose cigars and can easily be removed for presentation purposes.

Wall mounting: Liebherr's Humidor, with its attractive design and compact size, would be at home, either wall mounted or positioned on your finest tabletops.

Wall Mounting

The appliance can be wall-mounted. There are two mounting holes **1** at the back of the appliance.

CAUTION

Make sure the wall and fastenings can withstand the weight of the appliance when fully loaded. The empty appliance weighs 68.4 lbs.

IMPORTANT

To ensure sufficient ventilation through the ventilation slots, the four wall spacers **2** must always be inserted, regardless of whether the appliance is wall-mounted or standing on the floor against a wall.

Simply insert the spacers in the openings provided.
