

WS 1200 Grand Cru- Design & Lifestyle 17" Wine Cabinet 1 Temperature Zone

On the bar in your recreation area, in the master bedroom, or well placed in your great room, Liebherr's **WS 1200** gives you premium wine storage in an attractive package anywhere. The well-appointed cabinet holds up to 12 Bordeaux (750ml) on solid beech wood shelving and has a convenient drawer that can maintain a warmer temperature than the wine compartment to keep wine accessories, chocolates or candies.

Energy Efficient LED lighting can be controlled with a dimming function and a permanent "on mode" creates atmosphere without affecting the temperature of the wine. An activated charcoal filter, an insulated glass door with UV coating, and a precise temperature range from **41 °F to 68 °F** provide ideal storage conditions for fine wine.

Chocolate box

Soft-touch control

Number of 0.75-l-DIN Bordeaux-bottles, max.	12
