

Fatures

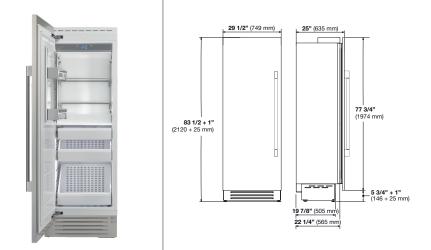

Our overlay column freezers are both powerful, elegant and provide commercial grade performance. With an elegant 304 stainless cladded door and matching pro handle, these columns match perfectly with our Fulgor Milano pro cooking products and feature a brilliant white aluminum interior with metal bins on full extension stainless glides. All units feature an accessory ice maker, with food preservation being the priority. Combining elegant design and commercial quality, ensures optimal food preservation performance. A dedicated compressor and evaporator provide consistent and precise temperatures throughout.

NICHE SPECIFICATIONS AND DIMENSIONS

NA STANDARD CUTOUT

When installing our top compressor models in a

standard NA cut out it is recommended to use the

J-profile trim kit to close the lateral gap of the appliance, alternatively use the standard plastic

mounting clips when installing unit into Euro width

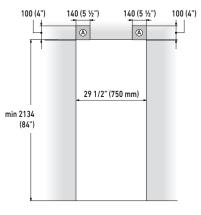

Installing in the unit in a standard North American

"cutout" without the J-profile trim kit, will result in a larger gap along the cabinet opening.

ļ

cabinet.

EUROPEAN STANDARD CUTOUT

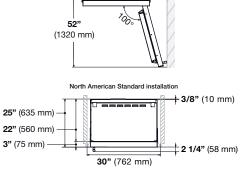

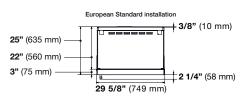

When installing our top compressor models in a new construction, it is recommended to use the European "cutout" dimensions to achieve a minimal gap on the lateral sides and avoid the need to use the J-profile trim kit.

Installing in the unit in a standard North American "cutout" without the J-profile trim kit, will result in a larger gap along the cabinet opening.

7 3/4" (195 mm)

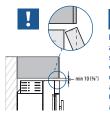

DOOR SWING CLEARANCE

Ņ

| TECHNICAL DATA | | |
|------------------|--|--|
| see above | | |
| 29 1/2" (749 mm) | | |
| 30" (762 mm) | | |
| | | |

If the units are to be installed inside a cutout or within an enclosed structure, it is necessary to design a ventilation shaft at the back of the cutout to assure proper ventilation at the back of the unit. Cross-sectional chimney ventilation area should equal 200cm² (31in²).

ELECTRICAL AND WATER CONNECTIONS
